## PCI DSS v4.0 Attestation of Compliance for Report on Compliance – Service Providers

**Entity Name: ANS Group Limited** 

Assessment End Date: 2024-08-08

Date of Report as noted in the Report on Compliance: 2024-08-08

#### **Section 1: Assessment Information**

#### Instructions for Submission

This Attestation of Compliance (AOC) must be completed as a declaration of the results of the service provider's assessment against the *Payment Card Industry Data Security Standard (PCI DSS) Requirements and Testing Procedures ("*Assessment"). Complete all sections. The service provider is responsible for ensuring that each section is completed by the relevant parties, as applicable. Contact the entity(ies) to which this AOC will be submitted for reporting and submission procedures.

This AOC reflects the results documented in an associated Report on Compliance (ROC). Associated ROC sections are noted in each AOC Part/Section below.

Capitalized terms used but not otherwise defined in this document have the meanings set forth in the PCI DSS Report on Compliance Template.

Part 2b. Description of Role with Payment Cards (ROC Section 2.1)				
Describe how the business stores, processes, and/or transmits account data.		ANS does not store, process or transmit any cardholder data and has no access to any cardholder data.		
Describe how the business is otherwise involved in or has the ability to impact the security of its customers' account data.		ANS Group Limited (ANS) provides physical hosting, infrastructure and managed services from its 5 Data Centres in Manchester (MAN 4-8) and 2 3rd party Data Centres (London and Slough) managed by Telehouse. ANS also build customer systems to the operating system level on customer request.		

	ANS has no access to any cardholder data which may be used by its customers.
Describe system components that could impact the security of account data.	ANS are responsible for the physical security of hosting environment, provision of infrastructure and the secure management of the infrastructure to facilitate the hosting environment.

#### Part 2. Executive Summary (continued)

#### Part 2c. Description of Payment Card Environment

Provide a high-level description of the environment covered by this Assessment.

For example:

- Connections into and out of the cardholder data environment (CDE).
- Critical system components within the CDE, such as POI devices, databases, web servers, etc., and any other necessary payment components, as applicable.
- System components that could impact the security of account data.

There is no cardholder data stored, processed or transmitted by ANS, and ANS do not have any access to customer cardholder data.

ANS are responsible for providing secure physical hosting, infrastructure and managed services to build customer environments on demand and supply and maintain network connectivity for customer use.

Indicate whether the environment includes segmentation to reduce the scope of the Assessment.	⊠ Yes	□No
(Refer to the "Segmentation" section of PCI DSS for guidance on segmentation)
